COMPLETED 2017

In 2017, we completed a successful modern shopping center Galerie Písek in Písek. The shopping center has 14 business units with a retail area of more than 7,000 square meters. It serves not only the city of Písek with a population of 30,000, but thanks to its strategic location on the main road between Prague and České Budějovice and also the residents from the surrounding area. This shopping center is simultaneously very easily accessible for pedestrians from the nearby city center.
